

UMAMA KHAN

Full Stack Web Developer — MERN Stack Developer

+92 320 808 3931 | umikhannn789@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full Stack Web Developer with hands-on, production-level experience building responsive, end-to-end web applications, e-commerce platforms, business websites, and CRM dashboards. Currently working as a Jr. MERN Stack Developer at Heapware Technologies, where I build and maintain full-stack applications using Next.js, React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Proficient in REST API development, Vercel deployment, and Git-based workflows, with a track record of delivering multiple production MERN-stack projects across e-commerce, logistics, and enterprise dashboard domains. Known for writing clean, scalable code with a strong focus on performance and user experience.

PROFESSIONAL EXPERIENCE

Jr. MERN Stack Developer — Heapware Technologies

May 2025 – June 2026

Heapware Technologies — Lahore, Pakistan (Remote)

- Designed and developed full-stack web applications, contributing across both front-end and back-end on multiple website projects.
- Built custom REST APIs and implemented responsive web designs, ensuring optimal user experience across devices.
- Worked across a full MERN technology stack (HTML, CSS, JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL) in collaboration with cross-functional teams.
- Delivered multiple MERN stack projects on schedule while improving website performance for clients.
- Optimized front-end code for speed and efficiency, and provided troubleshooting support to resolve client requirements.

Web Developer Intern — Ideoversity

November 2024 – March 2025

Ideoversity — Remote

- Completed a hands-on internship building and maintaining web application features under the guidance of senior developers.
- Assisted in developing responsive front-end interfaces and integrating them with back-end functionality.
- Gained practical experience with modern JavaScript tools and collaborative development workflows.

PROJECTS

Portfolio Website — Personal Project | u-portfolio-nine.vercel.app

Next.js, Tailwind CSS, Vercel

- Designed and developed a personal portfolio website to showcase skills, projects, and professional background.
- Built with Next.js and Tailwind CSS for a fast, fully responsive experience optimized across all screen sizes.
- Deployed via Vercel with continuous delivery integration for seamless updates.

Hukam Express — Transport & Logistics Platform | hukamexpress.com

Next.js, Node.js, Express.js, MongoDB

- Built a full-stack transport and logistics services platform offering on-demand ride-booking and delivery services, similar to InDrive.
- Developed a real-time booking system connecting customers with service providers, including live order tracking and dispatch.
- Designed responsive, user-friendly booking interfaces optimized for smooth navigation across devices.
- Integrated front-end with back-end REST APIs for real-time location updates and order management.

Stowave — Garments E-Commerce Platform | stowave.com

Next.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a full-featured e-commerce platform for a garments brand, including product catalog, cart, and secure checkout.

- Built responsive, conversion-focused UI/UX tailored to fashion retail, improving browsing and purchase experience.
- Implemented dynamic product filtering and variant selection alongside real-time order management.

Emaan Mall — E-Commerce Platform | *emaanmall.com*

Next.js, Node.js, Express.js, MongoDB

- Built a full-stack e-commerce web application with multi-category product listings, cart, and checkout functionality.
- Designed responsive front-end interfaces focused on smooth navigation and fast performance.
- Developed and integrated REST APIs for product management, order processing, and user authentication.

Infotecks — Corporate Website (UK-based Company) | *infotecks.com*

Next.js, Tailwind CSS

- Designed and developed a corporate website for a UK-based company, showcasing services and brand identity.
- Built a fully responsive, professional interface optimized for an international audience and cross-device compatibility.
- Focused on performance optimization and a clean, modern UI aligned with corporate branding.

CRM Dashboard — Business Management System | *Client Project*

React.js / Next.js, Node.js, Express.js, MongoDB / PostgreSQL

- Developed a custom CRM dashboard for managing client relationships, sales pipelines, and day-to-day business operations.
- Built dynamic data visualization components to track leads, sales performance, and client interactions in real time.
- Implemented role-based authentication and authorization for secure, multi-user access.
- Designed CRUD-based modules for managing customer records, tasks, and follow-ups, improving overall team workflow efficiency.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, API Integration

Databases: MongoDB (NoSQL), PostgreSQL, Database Modeling, CRUD Operations

Tools & Platforms: Git, GitHub, Vercel, VS Code, npm

Other Skills: MVC Architecture, Authentication & Authorization, Component-Based UI, Performance Optimization

EDUCATION

Bachelor of Science in Computer Science (BSCS) — University of Haripur, Pakistan	2024 – Present
Intermediate — FSc / ICS — Dawn Public School and College, Pakistan	2022 – 2024
Secondary School Certificate (SSC) — Dawn Public School and College, Pakistan	2020 – 2022
